

MADE GREAT

The Benefits of Informed Design and Better Ingredients

Trousers

Jackets

Design

- **StayCool System** – Le Chef continually innovates. We invented and launched the breathable cooling panels for chefs wear back in 2002
- **Perfect Amount of Fabric** – Slightly more fabric allows air to bellow and cool the body
- **Improved Comfort** – Better fabric fibre quality and lighter fabric weight with no loss of durability
- **Long Life** – Le Chef jackets and tunics are engineered to work hard and last
- **The Perfect Elasticated Waist** – So that our waist bands do not “Bite” after a hard day – We use 22 individual elasticated threads per square inch together
- **No Rough Seams** – all seams are designed not to rub, the insides are as beautifully cut and sewn as the outside
- **Fabrics** – Our uniforms should deliver unquestionable value! So we only use long life and reduced shrink fabrics: 50/50 Cotton/Poly and 65/35 Poly/Cotton

- **StayCool System** – Le Chef continually innovates. We invented and launched the breathable cooling panels for chefs wear back in 2002
- **Anti Rub** – Redesigned neck collar on all jackets and tunics to prevent neck-rub
- **Perfect Length** – More fabric allows length to come well below apron ties
- **Improved Comfort** – Using the latest in cloth technology we manufacture using better fabric fibre quality and lighter fabric weight with no loss of durability
- **Button Holes** – All button jackets have a “Tear” shaped eyelet for easier buttoning
- **Bar Tacks** – Wherever a seam faces stress – we add bar tack stitches to prevent tears
- **Long Life** – Le Chef jackets and tunics are engineered to work hard and last longer
- **No Rough Seams** – all seams are designed not to rub, the insides are as beautifully cut and sewn as the outside
- **Fabrics** – Our uniforms should deliver unquestionable value! So we only use long life and reduced shrink fabrics: 50/50 Cotton/Poly and 65/35 Poly/Cotton

Wash

- **Laundry Tough** – Wash tested for heavy duty cleaning fluids and processes for commercial laundries incl fabrics, buttons and stainless snaps
- **Bleach Resistant** – Colour safe
- **Soil Release** – Fabrics are easy wash and require less bleach
- **Crease Resistant** – Fabrics makes ironing a breeze or for NO iron, simply wash and dry on hanger

Ethical, Environmental & Quality Assurance

- **Oeko-Tex Standard 100** – Our uniforms are made with environmental and sustainable cloth production
- **ISO9002** – International work related and quality assurance production standard
- **Traceability** - Each and every Le Chef uniform has an individual batch number. We can trace back to the garment make date, cloth cutting and work station

- **Oeko-Tex Standard 100** – Our uniforms made with environmental and sustainable cloth production
